# INTEGRATED BARCODE SYSTEM

Barcode management lets you automate product handling with ease. From inventory intake to checkout, everything becomes faster and more accurate.

You can generate, print, and scan barcodes right inside the POS system—perfect for retail, pharmacy, or grocery stores.

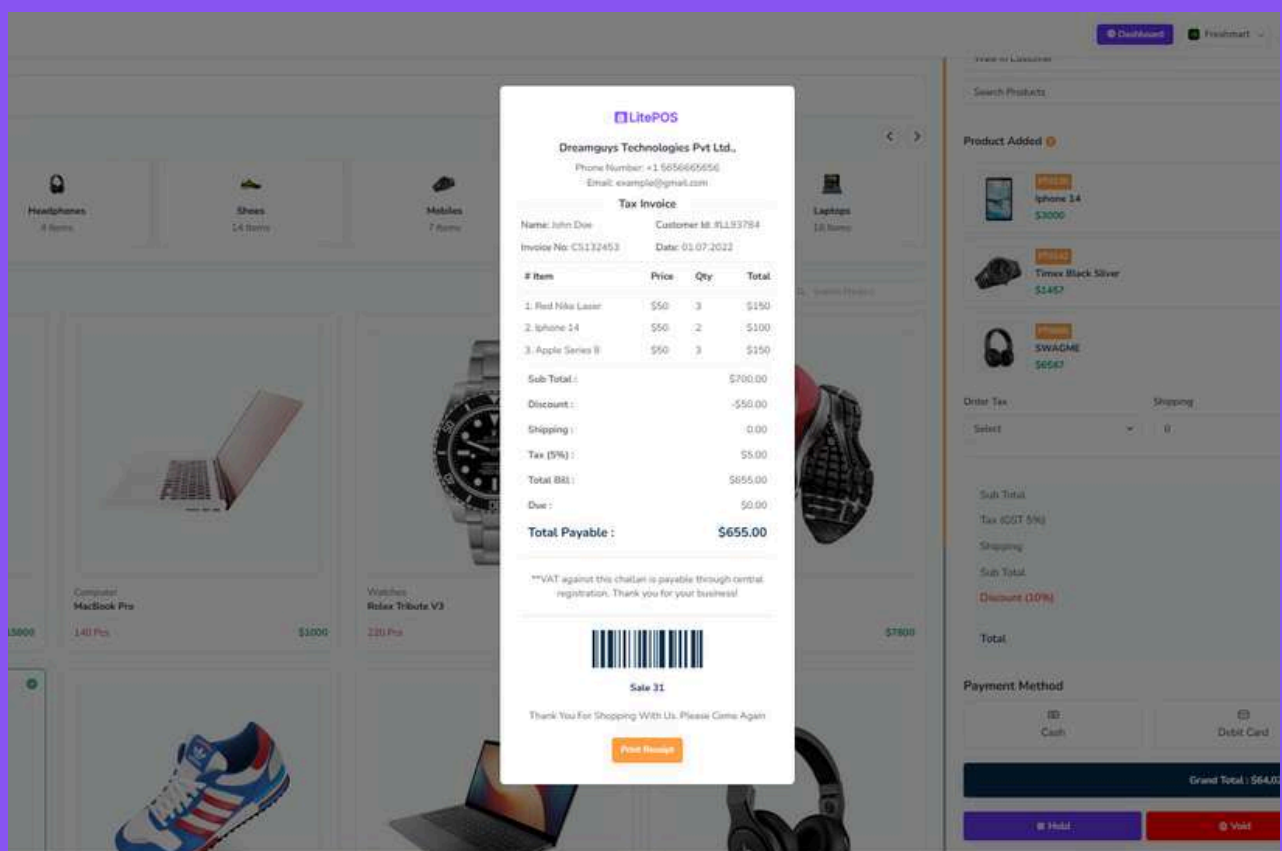

- Auto-generate unique barcodes
- Print barcodes in bulk
- Fast product search by scanning
- Reduces human error in billing

# POS PRINT SUPPORT

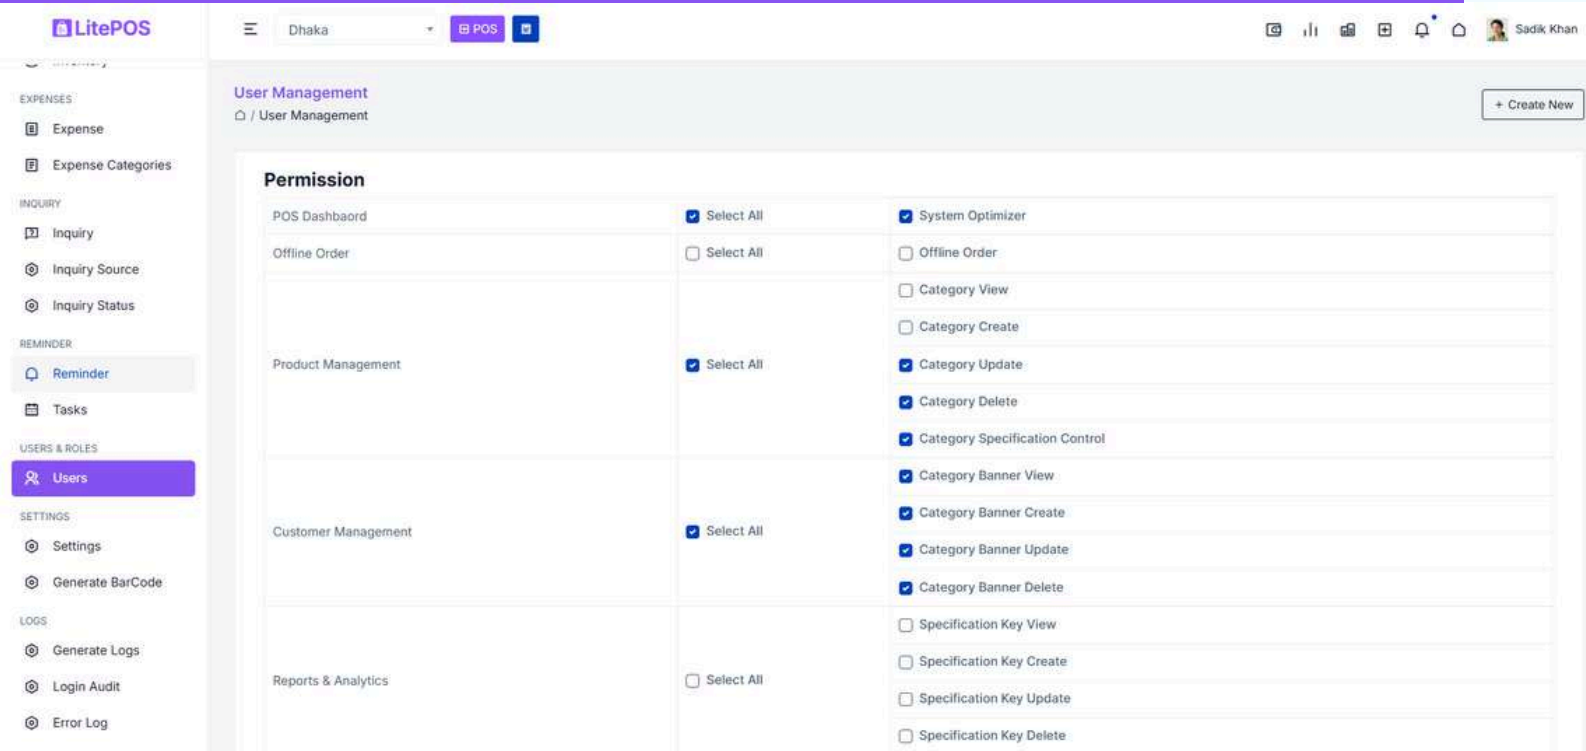

No need to worry about messy receipts or delays. With built-in POS printer support, every sale ends with a smooth, professional print.

Compatible with thermal printers, our POS system allows fully customizable receipt templates.

- Auto-print receipts on sales
- Supports thermal receipt printers
- Custom logo and footer in print
- Works offline & online

# STREAMLINE OPERATIONS WITH SMART USER MANAGEMENT

The screenshot displays the LitePOS User Management interface. The top navigation bar includes the LitePOS logo, a location dropdown set to 'Dhaka', and a 'POS' button. The left sidebar contains various menu items such as 'EXPENSES', 'INQUIRY', 'REMINDER', 'USERS & ROLES', 'SETTINGS', and 'LOGS'. The main content area is titled 'User Management' and shows a 'Permission' table. The table has three columns: a category name, a 'Select All' checkbox, and a list of specific permissions with their own checkboxes. The 'Users' menu item in the sidebar is highlighted in purple.

Category	Select All	Permissions
POS Dashbaord	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> System Optimizer
Offline Order	<input type="checkbox"/>	<input type="checkbox"/> Offline Order
		<input type="checkbox"/> Category View
		<input type="checkbox"/> Category Create
Product Management	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> Category Update
		<input checked="" type="checkbox"/> Category Delete
		<input checked="" type="checkbox"/> Category Specification Control
		<input checked="" type="checkbox"/> Category Banner View
		<input checked="" type="checkbox"/> Category Banner Create
		<input checked="" type="checkbox"/> Category Banner Update
		<input checked="" type="checkbox"/> Category Banner Delete
Customer Management	<input checked="" type="checkbox"/>	<input type="checkbox"/> Specification Key View
		<input type="checkbox"/> Specification Key Create
		<input type="checkbox"/> Specification Key Update
		<input type="checkbox"/> Specification Key Delete
Reports & Analytics	<input type="checkbox"/>	

Manage who can access what in your system with role-based controls. Ensure every team member only sees what they need.

This improves data security and keeps operations smooth and accountable.

- Create roles like Admin, Cashier, Inventory Manager
- Assign permissions based on responsibilities
- Block or allow access to sensitive features

# REAL-TIME INVENTORY MANAGEMENT

Track and manage stock across all your branches in real-time. Receive low stock alerts and monitor damage or returns with precision

Stay updated with stock levels across all branches. Avoid overstocking or running out of critical items.

Smart alerts and movement logs keep you informed about every item.

- Branch-wise stock monitoring
- Low stock alerts
- Damage & return tracking

The screenshot displays the LitePOS Inventory Management interface. The top navigation bar includes the LitePOS logo, a location dropdown set to 'Dhaka', and a 'POS' button. The main content area is titled 'Inventory Management' and features a '+ Create New' button. Below this, there is a search bar and a table of inventory entries. The table has columns for Product, Date, Stock, and Creator. The entries shown are:

Product	Date	Stock	Creator
Samsung Galaxy S23 128GB Black	28 April, 2025 06:24 AM	-10 Piece	Sadik Khan
Samsung Galaxy S23 128GB Black	28 April, 2025 06:24 AM	-3 Piece	Sadik Khan
Samsung Galaxy A14	28 April, 2025 06:24 AM	-3 Piece	Sadik Khan

Below the main table, there is a section for 'Results Showing for: Dhaka Branch' with a search bar and a table of product details. The table has columns for Name, Category, Stock, P.Price, MRP, and Status. The entries shown are:

Name	Category	Stock	P.Price	MRP	Status
Dell XPS 13	Laptops & Computers	8GB RAM Stock 256GB SSD Stock 16GB RAM Stock 512GB SSD Stock	\$130,000.00	\$185,000.00	🔴
Dell Inspiron 15	Laptops & Computers	🟢	\$57,000.00	\$70,000.00	🟢
Samsung Galaxy S23	Mobile Phones	128GB Black Stock 256GB Green Stock	\$105,000.00	\$139,999.00	🟢
Samsung Galaxy A14	Mobile Phones	🟢	\$16,500.00	\$20,000.00	🟢

- **Categorized expense logging** for better financial clarity
- **Attach receipts/documents** with each expense entry
- **Detailed reports** (daily, weekly, monthly) for smart decision-making
- **Filter by date, category, or branch** to get precise insights
- **Multi-user tracking** to monitor who's spending what

The image shows a screenshot of a web application interface. The main content area is dimmed, displaying a 'Reminder Management' section with a table header 'Subject' and a message 'Showing 0 to 0 of 0 entries'. A modal window titled 'Create new Reminder' is open on the right side. The modal contains the following fields and options:

- Subject \***: A text input field.
- Message \***: A text input field.
- Repeat**: A dropdown menu set to 'No'.
- Send Email?**: A dropdown menu set to 'No'.
- Reminder Date**: A date input field showing '30 April, 2025'.
- Reminder Time**: A time input field showing '05:04'.

At the bottom right of the modal, there is a 'Close x' button. The background interface also shows a navigation menu with 'Dhaka' and 'POS' buttons.
